

Summary

At ADGA, our focus is to be the leading Canadian provider of technology solutions in defence, security and enterprise computing. We harness the best and brightest engineering minds to provide tailored solutions whilst creating unique avenues for continued professional development. This is the cornerstone of ADGA's reputation as Canada's industry leader in engineering and technology solutions. We continue to grow, with industry-leading proficiencies in the areas of: systems engineering science, communications, aerospace, civil aviation, cyber and space systems, project management consulting, information management, software development and technical support.

ADGA conducts business with the highest standards keeping the best interest of our clients and employees first. We are ISO certified to 9001 standard which means ADGA's independent third-party certification ensures best practices in rigorous quality assurance management. From concept to implementation ADGA continually exceeds expectations; making us the first choice as a trusted provider with the capacity to plan, build, deploy and operate multi-year programmes of strategic significance.
